Art Unit: 1616

The declaration of D. M. Anderson filed on 12/15/06 is deemed convincing, therefore, the 103 rejection in the previous action is withdrawn.

Claims 1, 3-19, 27, 29-44, 52-53, 56, 58-60 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Nowhere in the specification do applicants disclose or claim the percent ranges of the claimed ingredients which will make the claimed species of structured fluid. The quantity of experimentation needed to make the invention is undue because applicants do not disclose the above cited ranges and the level of predictability in the art is low.

No claims allowed.
